

# Atlanta Half Marathon 2024

## Hydration Station #3

### Ace Hardware 854 N. Highland

### Thanksgiving Day Half Marathon 2024 HS #3 Ace Hardware, 854 N. Highland

Equipment Arrives: 5:45AM Volunteers  
First Participant: 8:00 Last Participant: About 8:40

#### EAS sign:

The EAS sign stand is a long metal "tripod". Flip the arm at the top of the stand all the way around until it is firmly in place. Use cable ties to attach appropriate sign to the stand (green, yellow, red or black.) The signs indicate whether the race is all clear (no weather hazards, including heat, etc). Once the sign is attached, stand the sign up facing the runners and put 2 sandbags on the feet.

#### Tips:

- 8 tables are for water
- Dasani 1 liter bottles of water, try to use 12 cups for each bottle.
- 2 tables for PowerAde
- Use 1 5 gallon bag of PowerAde powder per 8 gallons of water.
- Leave 4 ft spacing between ALL tables
- Tables can be on side walk on both sides of the bridge.
- 8 trash receptacles after tables
- Please place trash boxes past the station. Space them apart as far as seems reasonable. Duct tape the trash bag to the trash box so the bag doesn't fall into the box when people throw their bottles in.
- Please have volunteers walk up and down the course picking up any bottles that didn't make it into the trash boxes. Use the vinyl gloves, rakes and scoops provided.
- Put covers over table tops
- Cardboard will be provided in order to layer the cups on each table. 2 layers should be more than enough.
